

Continuity™

Peace of mind from day one

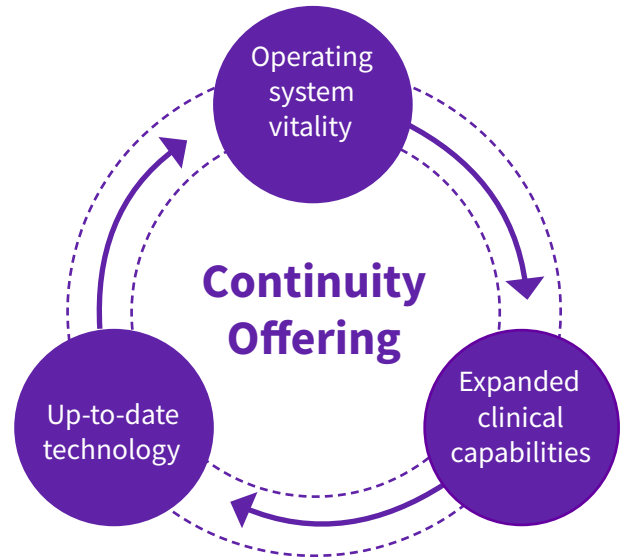

We Can help

Continuity™ helps optimize your GE Healthcare systems and provides peace of mind over the lifecycle of your technology investment from day one of your new equipment purchase.

- Receive regular and timely cybersecurity, software reliability, and computing performance upgrades
- Keep your equipment working at peak performance
- Provide enhanced patient care with predictable, lower maintenance costs and upgrades

Our Continuity™ offering

You'll further benefit from **regular system software updates** to the application software to optimize the performance and reliability of the device. If you wish to upgrade your current application software, further Continuity and Smart Subscription Programs are available.

How does Continuity™ go with the lifecycle of your systems?

Help you to proactively **protect your initial investment** at the moment of equipment purchase or within the first years of system usage
