

LOGIQ Fortis™

Powerfully streamlined solution

Deliver confident care with this multi-purpose ultrasound designed with advanced clinical features and AI-based productivity tools.

Exceeding your clinical expectations

Enhance your clinical capabilities and increase productivity exponentially to deliver confident care.

- High-quality imaging with **cSound™ ImageFormer** combined with:
 - Extended XDclear™ probes with new L4-20t-D button probe
 - Advanced Speckle Reduction Imaging
 - Adaptive Contrast Enhancement (ACE)
 - CATO & CTO Automatic Optimization
- Assess any flow state with **advanced flow modes** including:
 - Color Flow, Power Doppler Imaging and Microvascular Imaging with Radiantflow™ and B-Flow
- Deliver consistent results with **advanced quantification tools**
 - 2D Shear Wave Elastography
 - Ultrasound-Guided Attenuation Parameter (UGAP)

Experience the flexibility of the wireless Vscan Air™ CL probe coupled with the processing power of LOGIQ Fortis

Optimizing your productivity

Streamline workflow with advanced productivity tools and sleek design to enhance exam consistency, speed, and accurate diagnoses.

- **AI-based productivity tools**
 - Auto Preset Assistant
 - Auto Abdominal Color Assistant
 - Auto Doppler Assistant
 - Auto Lesion Segmentation
 - Auto Renal Measure Assistant
 - OB Measure Assistant
- **Exceptional mobility, ergonomics, and scan-on battery**

Maximizing your investment

Achieve more with a total product lifecycle experience and next-generation digital platform to expand as you grow.

- **App API Launchpad** to bring the best solutions from GE HealthCare, researchers, and startups to your LOGIQ system
 - 3rd party applications on device
 - Streaming capabilities to bring high-quality data to connected devices
- **Education, digital support, and service**
 - Verisound™ Fleet
 - Digital Expert Connect
 - SonoDefense
 - LOGIQ Club
 - Probe Check
