

Time is everything, and in the Emergency Department every second counts.

By implementing a **total encounter-based** workflow solution including RFID badge scanning for clinician, barcode scanning of patient bracelet information and reporting, clinicians can save **up to 79%** of time vs. manual traditional processes.

79%

ViewPoint 6 & Venue family

Quicker VS manual traditional processes

A Second makes a difference

25%

By implementing **RFID badge scanning**, clinicians can save **up to 25%** of time

VS. Manually entering login credentials into the Venue system.

37%

By implementing **barcode scanning** of patient bracelet information, clinicians can save **up to 37%** of time

VS. Manually entering patient information into the Venue system.

27%

By implementing **ViewPoint 6 reporting direct from the Venue system***, clinicians can save **up to 27%** of time

VS. Reporting from ViewPoint 6 in an offline workstation.

Data from an internal timing study DOC2757861_Rev2
