

Continuity™ Premium

for Computed Tomography (CT)

Advancing your vision for clinical care

Clearing your path to clinical advancement

You're always looking for what's new and next for your patients—the latest advancements you can leverage to deliver faster, more accurate care. But making it happen is a different matter. Is your equipment ready? How will you handle the time-consuming, budget-stressing challenges of purchasing, installing and managing technology upgrades? Turn to GE HealthCare.

The Continuity program keeps your technology investments up to date with the latest capabilities over the lifecycle of your GE HealthCare Imaging Systems. Instead of struggling with fragmented upgrades, you can add Continuity to your standard service contract to receive ongoing, automatic software and hardware upgrades.

These regular upgrades bring modern performance to your imaging equipment—not only extending the useful life of your assets, but providing being able to host new clinical capabilities. Furthermore, you gain the peace of mind knowing you can continue adding value to your investment and drive your vision forward with predictable, lower costs.

Prepare your imaging platform for a changing environment

Deliver high-quality care

- Be ready to expand clinical capabilities when upgrades become available
- Enable growing and diversified examination needs
- Help enhance staff and patient satisfaction

Optimize asset lifecycle

- Protect your investment by keeping your assets current
- Efficiently manage technology upgrades
- Help with department standardization

Enhance financial performance

- Simplify budgeting
- Benefit from predictable, lower upgrade costs
- Help improve asset planning capabilities

Existing option ¹ improvements	<ul style="list-style-type: none"> • GSI Bone/Bone+ • PMR for SnapShot Pulse/GSI SnapShot • Pulse 	<ul style="list-style-type: none"> • GSI interrupt resume capability 	<ul style="list-style-type: none"> • Smartview 3D 40 mm for Frontier 	<ul style="list-style-type: none"> • Interventional Improvements on SmartView 3D
Enabled new purchasable options	<ul style="list-style-type: none"> • Smart MAR • ASiR-V 	<ul style="list-style-type: none"> • DoD cybersecurity requirements • GSI Pro (GSI Recon speed improvement) • ASiR-V for HiRes and GSI mode • DIN6868-157 German Image Display Standard • 0.35s routine for non-cardiac (LB Tube only) 	<ul style="list-style-type: none"> • Smart Subscription: SSF2.0, AWS • IPM connectivity • 1024 image recon 	<ul style="list-style-type: none"> • Deep Learning Image Reconstruction (DLIR) • Auto Positioning • Remote Control Suite • SmartView 3D • AntiMalware McAfee ePO • UW Protocol rev7

¹ Update available if option previously purchased
² FPS for Normal Helical Scan

* The information in this document consists of one potential example of how having a Continuity Premium Agreement could impact ownership of certain GE HealthCare equipment. Nothing in this document is a guarantee of future releases or pricing for this product or any other GE HealthCare products.

Potential savings on future upgrades with Continuity Premium**

** This example assumes a product that has system software upgrades at Yrs. 2 and 4 and a Console upgrade at Yr. 4 of the Continuity Premium Agreement. There is no guarantee that any given system would have such upgrades during the term of your Continuity Premium agreement. The prices reflected are examples of potential pricing and do not represent what the pricing for all such upgrades or for your Continuity Premium Agreement would be. In the event software and or console upgrades are available for a covered product, pricing will vary depending on what these upgrades are and the determined sale price for such upgrades.
