Overview

GE HealthCare

# Introducing OnWatch Predict for Molecular Imaging (MI)

## Omni Legend and Discovery™ MI DR for PET/CT systems

Bringing AI-powered predictive analytics and 24/7 remote monitoring to two of our most advanced platforms. Designed to help reduce unplanned downtime and support consistent image quality, OnWatch Predict continuously monitors system health and compares real-time data to a digital twin model to help forecast potential issues before they impact care.

Expedite and streamline necessary repairs with planned labor on site

Make equipment service work with your schedule — not vice versa

Maintain excellent image quality
